

ORGANIC Leadership Assessment

Assess your leadership behaviors by answering the 12 questions below.

Take the following into account:

- Score each of these statements out of ten, where one is the lowest score and ten the highest
- Base it on how much you agree with the statement
- There are NO wrong answers
- There is NO correct leadership behavior

#	Statement	Score (1-10)
1	I am good at encouraging teams to challenge their assumptions and break through to new levels of performance	
2	I am good at getting people on board, motivating them towards compelling strategic goals	
3	I believe in modeling desired behaviors and expecting others to follow my lead	
4	I believe that my solution is never going to be as effective as a solution my people come up with by themselves	
5	I encourage people to work together while making sure they are meeting their targets	
6	I like to ensure high quality by being very clear about what I expect of people	
7	I like to make sure that individuals can get access to the people and resources they need in order to do their jobs	
8	I like to make sure the right work is always allocated to the right people	
9	I like to share with people goals to reach for, rather than tasks to complete	
10	I prioritize long-term individual and team growth over short-term results	
11	I take a back seat from active team leadership and instead support my team to govern themselves	
12	I will delegate tasks but reserve the right to resume control if people are not performing adequately	

Then calculate the score...

#	1 + 11	2 + 9	3 + 12	4 + 10	5 + 7	6 + 8
Combined Score						

... and copy the score to the table on the reverse page.

#	1 + 11	2 + 9	3 + 12	4 + 10	5 + 7	6 + 8
Combined Score						
Behavior	Catalyzing	Envisioning	Demanding	Coaching	Conducting	Directing

What do these leadership styles mean?

Here is a summary of the attitudes, characteristics and behaviors of leaders and teams:

	Leader Attitude	Leader Stance	Work Management	Definition of success	Motivational style	Group Unity (what holds us together)
Catalyzing	You can do even better	Leader is challenger	Self governing, purpose-driven	Open-minded independence	Awareness of the impact the team has on the rest of the organization, market... world	Proactively looking for new challenges, trust in the team and accountability are very high
Envisioning	We can do this together	Leader is enabler	Collaboratively agreed	Collaboration	Shared responsibility creates safety and collective sense of belonging	The team identity and the shared inspiring and appealing purpose hold the group together.
Demanding	I expect you to meet my standards	Leader sets the bar	Assigns targets to individuals	Meeting targets	Patronage and individual incentives.	Realistic and achievable targets. Leader's capability to resolve conflicts
Coaching	You can do this without me	Leader is servant	Self-directed	Autonomy	Proud to be part of the tribe, profound trust in the team and their potential	Team are aware of their potential and are able to master their own destiny
Conducting	I encourage you to work together while meeting your targets	Leader is organizer	Coordinates work between individuals	Cooperation	Opportunity to manage my own work and seek support from people I trust within the team	Clarity of roles within the team and development of group dynamics towards team identity
Directing	This is exactly what I want, how and when	Leader is authority	Assigns work to individuals	Full compliance	Threat of non compliance, failure isn't an option	Direct relationship to leader who holds the group together. Absolute clarity about what needs to be done and how
